

JROTC CLASSROOM RULES: Like all other high school classes, JROTC has rules to follow in order to maintain a focused and disciplined training and learning environment, and to develop “citizens of character”. Cadets need to comply with the instructions given by the cadet in charge, especially when the instructor is not present.

1. Go to the restroom BEFORE CLASS!
2. Get to your desk with ID prominently displayed, and standing at parade rest before tardy bell rings.
3. One person speaks at a time, by raising your hand, and waiting to be recognized by the Instructor; exceptions are an announced free discussion.
4. Be attentive when someone else is speaking and be respectful to everyone.
5. Absolutely no use of mobile devices during JROTC classes unless authorized by an Instructor.
6. Wear and use of headphones and/or earplugs while in JROTC is not authorized.
7. Bring to class all required materials needed for the JROTC class period to include pencil and paper.
8. DO NOT bring materials that do not pertain to JROTC.
9. DO NOT work on homework from your other classes or read outside books unless given permission by your flight commander or instructor.
10. Do not sleep in class or put your head on the desk as it is very disrespectful and distracting! If you are drowsy, go to the back of the room and stand up!
11. Do not get up out of your chair for trash or any other reasons unless you have permission by your flight commander or instructor.
12. Do not bring food, snacks, candy, gum or drinks to class. Instructors may allow food and drinks, but they decide when, not you!

NOTE: *Any violation of classroom procedures, classroom rules, and any other school policies will be subject to letters of counseling, reprimand, or admonishment as determined by the Instructors. Serious violations and/or a compilation of violations may result in removal from the JROTC program. Violations of these rules and procedures may also result in restrictions from participating in other cadet activities, competitions or taking field trips.*
