

STEMKAMP 2024 / SCUC-ISD UPDATE!

We are thrilled to announce the update for STEMKAMP 2024 here at SCUC-ISD!

Our fabulous SCUC-ISD STEMKAMP for 2021, 2022, 2023 was completely funded by a grant awarded to Goshen Education Consulting by the U.S. Department of Defense STEM. This three-year grant supported SCUC-ISD as well as nine other districts across the US.

All funding, except for the curriculum costs graciously given to us by Goshen Education Consulting, is now the responsibility of each district. After careful consideration and funds made available by SCUC-ISD and our current DODEA grant, we are pleased to announce that we will be able to host STEMKAMP 2024 this summer.

The dates for camp will be **June 3-7, 2024, at Steele High School Campus.**

The cost of the registration this year will be **\$60.00 per camper** and will include activities, lunches and snacks for the week. This increase is needed as our funding has changed and we worked diligently to keep it as low as possible.

STEMKAMP 2024 will host 125 students who will be entering grades 3-8 in the fall of 2024.

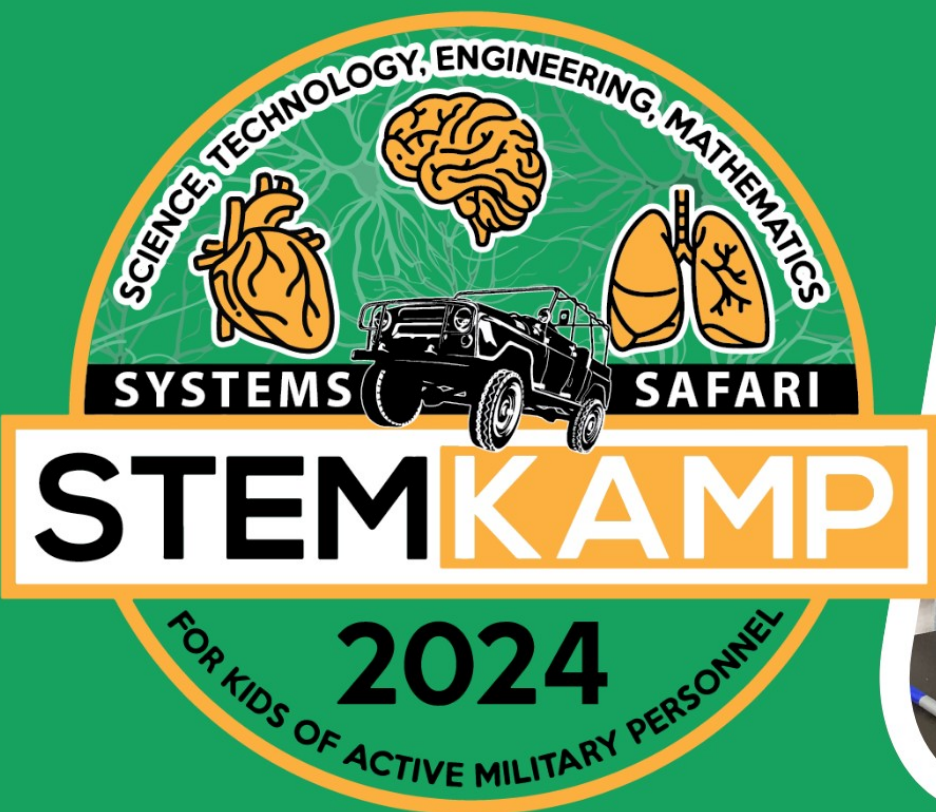

63 slots will be held in preference for active-duty dependents, with the remaining 62 slots will be open to all students. We cannot guarantee that sibling requests will be accommodated.

Registration will open on **Tuesday, March 19, 2024**, using the Reg Fox registration manager as we have used in the past.

Please watch for more information and update on our SCUC-ISD Student and Family/DoDEA Grant Facebook page.

We are thrilled to offer this opportunity for hands-on/minds-on learning for our 3-8th grade students. We have an amazing team of teachers, student assistants, and district staff who are dedicated to making this week one to remember!

Thank you for your support and patience! We have been diligently working on making this happen since last June!
