Major Era 1

Exploration and Colonial Era

1492-1763

Exploration

Reasons for exploration:

- Religion (God)
- Wealth (Gold)
- Fame and International recognition (Glory)

Leads to discovery of North America and eventually colonization

Important Dates

1607 — Jamestown is founded: 1st Permanent English Settlement

1620 — Plymouth was founded: Pilgrims travelled to Plymouth and signed the Mayflower Compact to establish self-government

Early Representative Government

Mayflower Compact — Signed by many pilgrims, helped establish the idea of self government.

Virginia House of Burgesses — 1st representative assembly in North America

Establishing Colonies

- Religious and Political Freedom
- Economic Opportunity (mercantilism and opportunity to own land)

Settlement of the American Colonies

- **New England** (CT, NH, MA, RI): settled by Pilgrims in 1620 and Puritans in the 1630s to escape religious persecution in England
- **Middle Colonies** (NY, NJ, PA, DE): NY was important trading area, William Penn founded PA for religious freedom
- **Southern Colonies** (VA, MD, NC, SC, GA): Maryland founded by Catholics feeling religious persecution, GA was created for debtors

Conflict with Native Americans

- Early settlers
- French and Indian War

Slavery Established

The need for cheap laborers to grow cash crops encouraged white settlers to use African slaves.

- Farmers grew crops on **plantations in the south**. Farmers used **slaves** to do the work so they could produce the cash crops cheaply.
- **Invention of cotton gin** in 1793 made it even easier and cheaper to grow cotton. **This required more slaves to help the farmers grow it.**
- As America acquired new territories, slavery became a controversial issue.

People of the Colonies

Thomas Hooker — Founder of the state of Connecticut, “Father of American Democracy. Connecticut adopted the Fundamental Orders of Connecticut sometimes called the “First written Constitution.”

William Penn — Established Pennsylvania as a refuge for Quakers. He supported freedom of worship, welcomed immigrants, and did not require residents to serve in a militia.

Anne Hutchinson — Banished from Massachusetts colony; one of the founders of Rhode Island

French and Indian War

- British colonists wanted to take over French land in North America.
- British soldiers fought against French soldiers and Native Americans.
- Native Americans joined against the British b/c they were afraid the British would take over their land.

Treaty of Paris (1763) - Ended the French and Indian War

- Also as a result of the war, **the British began taxing the colonists to pay for the war** and the **proclamation line of 1763** was established to **keep colonists from settling west of the Appalachian mountains.**

Major Era 4

Westward Expansion

1812-1846

Monroe doctrine

issued by President **James Monroe (5th President)** 1823

- The doctrine stated that the U.S. would not allow any European country to create new colonies anywhere in North or South America
- The doctrine that the U.S. would stay out of European affairs and Europe should stay out of U.S. affairs
- America now saw itself as a world power

Mexican War (James K. Polk –President)

- America and Mexico argued over the border between the Texas and Mexico.
- America invaded Mexico and Mexico surrendered (“Stonewall” Jackson recognized as a hero of the war)
- Mexico recognizes Texas as a part of the U.S. and settles border dispute– Rio Grande the border
- Mexico gave up the **Mexican Cession** which helped complete Manifest Destiny.

Jacksonian Democracy

The idea that as many people as possible should be allowed to vote

Industrialization

an economy that begins to be based on factories rather than farming.

Factors that led to industrialization:

- War of 1812– America could not buy goods from England and was forced to make their own goods
- Inventions changed the way goods were produced
- Improvements in transportation– made it easier, faster and cheaper to send goods to buyers

Main features of Industrialization:

1. Occurred in the North
2. machines began to do the work that people did
3. unskilled workers replaced skilled workers
4. more people worked, including women and children

Manifest Destiny

the idea that **America** is **destined** to go from “Sea to shining Sea” or the **Atlantic to the Pacific**.

Reasons for expansion:

- We didn’t want anyone to get there first and try to colonize (Spanish or French)
- Wealth– rich farm lands, timber, minerals and gold
- Many Americans believed it was important for all Americans to have their own plot of land

Issue: led to conflict with other peoples and nations

Transportation

Colonial Era

- trade and travel occurred along rivers
- Roads improved during this time but still rough

Early Republic

- A. Hamilton increased taxes in order to improve the national transportation system
- **Steamboat** invented by **Robert Fulton** allowed for goods to travel faster

Era of Westward Expansion

- Canals helped link farms and cities and made it easier to transport people and goods-
- The ability to transport people and goods allowed cities to grow and expand
- The growth of cities, trade and the migration of people all increased with the development of the railroad

Gadsden Purchase (1853)— Land purchased from Mexico in used to complete the transcontinental railroad.

Florida Cession(1819) — given to the U.S. by Spain

Mercantilism v. Free Enterprise

Mercantilism	Free Enterprise
British government imposes strict control of colonial economy	Government does not control but regulates to make it fair
America discouraged from producing manufactured goods	Free to produce whatever goods wanted
America encouraged to buy British goods	Free to buy goods from any country
America’s trade with other countries is restricted	Free Trade: The U.S. can trade with any country it wants to
