

Dear Parent/Guardian,

This year your child is using Lexia Reading Core5®, a fun computer-based program that has helped millions of students. The activities in Lexia Core5 support and build on our classroom curriculum and focus on developing reading skills in six areas: phonological awareness, phonics, structural analysis, fluency, vocabulary, and comprehension.

Here's how Lexia Reading Core5 works:

- Your child begins Lexia Core5 at a starting point that fits his or her needs (determined by a quick online assessment of skills) and works in online activities throughout the week.
- Online activities include direct instruction and feedback as your child learns new skills.
- Progress and performance in the program is reported so teachers can provide help when needed.
 - Your child is currently on Level xx out of 21 levels.
- Paper-and-pencil activities are also used for practice and may be done in school or brought home.
- Achievement certificates are earned when your child completes a level and may be sent home to celebrate success and to show progress in the program.

We hope you share in our excitement about this program!

Sincerely,

Ms. Bass, Dyslexia teacher

Lexia Reading Core5® can be used at home for extra practice. Getting started is easy!

1. To use on a computer, go to www.lexiacore5.com
2. To use on an iPad, download the free **Lexia Core5 Reading app** from the App Store. (iPad support is limited to these devices: iPad 4+, iPad Mini 3+, iPad Air+, and iPad Pro.)
3. The first time your child uses Core5, you may need to enter the teacher email shown below. Your child can then log in with the username and password used at school and listed below.

Teacher Email (for setup): *kbass@scuc.txed.net*

Username: _____ **Password:** _____

4. If you have a question about your child's username or password, please contact your child's teacher at the email above.
5. It is important that your child works without any help while using Core5. All of the work your child does at home is recorded and reported to school. This way, teachers can see when help is needed and provide additional instruction at school.
6. Recommended sessions are 20 minutes per night.
